## SANT NIRANKARI PUBLIC SCHOOL CLASS –III SUBJECT- ENGLISH WORKSHEET -1

1 Read the passage and answer the questions -

Once, there was a water bearer in India. He used to carry two big pots, each hung on one end of a pole, across his shoulders. One of the pots was cracked and imperfect. However, the other pot was perfect. It always remained full of water at the end of the long walk from the stream to the master's house. But the cracked pot delivered only half of the water. Everyday the bearer delivered only one-and – a- half pots of water to his master's house. The perfect pot was proud of its accomplishments, as it delivered the full portion of water unlike the cracked pot.
