From Principal's Desk...

At Sant Nirankari Public School, Tilak Nagar, we focus on complete development of our students by involving them in both scholastic & co-scholastic activities as suggested by CBSE. I am sure this will help our children to realize, understand & explore their talents.

"If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits."

Therefore, children must be given a good training from their earliest childhood. *We believe in the philosophy of work is worship and this has blessed us with the perseverance to work for our children tirelessly. Our hard-working teachers have always strived for well-being of future of our students. Our school aims at all round development of our students.*

"Do the work with intention not because of compulsion." With all my love, best wishes and blessings.

From Chairman's Desk...

Education is not mere accumulation of facts; it is preparation of life itself. We at SNPS exemplify the fact that sky is not the limit in the pursuit of excellence. The aim of our school is to promote a system of integral education in a congenial child-friendly environment that emphasises the unity of all knowledge, synthesises humanity and sciences and recognises the fact that each child is unique. We believe that education should enable the students to soar high - morally, socially and spiritually. We believe that our students need to learn that the secret of success and contentment lies in discovering one's own strengths as well as limitations.

I would like to end with the words of Albert Einstein – **"Imagination is more important than knowledge, for while knowledge defines all that we currently know and understand, imagination points to all we might yet discover and create."**

From Manager's Desk...

"Focus on the journey, not the destination. Joy is found not in finishing an activity, but in doing it."

Learning at our school is based on the fundamental principles of life; teaching the children to be courageous, confident, disciplined, responsible and loyal. Education at our school provides a foundation for a lifetime of learning and is great fun too.

Education is not just about the subjects that are learnt and taught in school. Becoming educated is not restricted to being in school and then in college, gathering certificates and feeling proud of oneself. It is a lifelong exercise that can be unbelievably exciting if only we wish to jump onto the train of experience and take a trip to every conceivable place on the earth.

Also, always remember that nothing stays forever – neither success nor failure. The only thing that is constant in life is change. We have to accept the changes and challenges of life and be mentally focused, strong and determined.

I also take this opportunity to thank the parents of our students for having bestowed their faith and confidence in us. Your faith in us is our driving force.
